Old & New Business

- We discussed the dwindling numbers of libraries participating in the circuit sets. At the next meeting we would like to pursue the possibility of disbanding the circuit sets and instead share some “digital” resources as a Consortium. As ‘homework’ for this meeting, we would like to ask all those willing to do a little research and then come prepared to the next meeting with information/opinions of a few specific products.
- One of these is the **Foundation Directory**. This is a grant search platform. Libraries can create a free account for basic searches for grants. It is a possibility that we could pay for a more professional subscription as a consortium.
- The second one we discussed was **Creative Bug**. This has a free 60 day trial period. If anyone is interested in doing this trial period and come to the next meeting prepared to share their thoughts about subscribing to this platform as a consortium, we would appreciate.
- The third platform we talked about is **Kanopy**. Meg, from McCall, is looking into this platform for us, but if anyone else has any experience using Canopy we would love to hear from you.
- We would also love to hear any other suggestions in February!
